

I do not believe Sinclair is acting in the public interest airing an anti-Kerry special as if it is news. There are differing views about John Kerry's military service. How can the public make a decision if only one view is broadcast? There is also the matter of Sinclair demanding local stations preempt regular shows just to broadcast a biased propaganda piece of work just before election. It does not serve public interest. Maybe their license should not be renewed. Congressmen, please pay attention to the FCC. Make sure what they do is in the public interest...not in one or the other Party's interest.  
Thanks. Regina Baker
